

**Privé
clinic**

**introduces
Cosmelan® Peel**

Cosmelan is a Depigmentation treatment based on the inhibition of tyrosinase, a basic enzyme in the melanin formation process.

Several of the substances present in Cosmelan formula act by blocking this enzyme, even by inverting the metabolic process of the transformation chain. Its principal action is the elimination of melanin patches on the face (melasma and chloasma).

- Very effective in all types of melasma
- Rapid and easy depigmenting action
- Compatible with ALL skin types
- Light peeling effect
- Rejuvenates the skin
- Beneficial for acne patients
- Does not contain TCA

**For the Month of July
Purchase a Cosmelan Peel
and receive 1 x session of microdermabrasion, electroporation and
cleansing facial (worth \$320)* each with every treatment purchased
(not inclusive of Consultation)**

**Gather 2 or more friends within a month to enjoy this offer and all will
receive a Body (Back) Peel (worth \$300)***

Important:

- If you have undergone any previous treatments, especially with glycolic acid/Retinol A, these treatments must be completely stopped at least two week prior to using Cosmelan® Peel.
- As melanin production is being suppressed, failure to maintain proper use of sunscreen and your support** products may allow reactivation of pigment production cycles.
- Cosmelan® Peel is NOT TO BE COMBINED with any other depigmentation treatments.
- Follow up visits are recommended 8 days after the beginning of treatment.
- Flaking may occur on all skin types (between the second and third day. In this case it is advisable to apply the Hydra-vital factor K cream, repeating this every two hours on the day when the flaking is most intense. After the third or fourth day, the skin appears healthy and luminous and the marks begin to fade.
- You may experience some discomfort during the treatment, similar to a transient stinging sensation, during the treatment.

*Client will be leaving the skin with a thin layer of red mark. (covering treatment advised)

**Supporting items such as product cosmesce 2 and Hydra-vital factor K Cream are essential for maximum effect.

-Terms and Conditions applies
